Summary

A dedicated Computer Science student at FAST NUCES Islamabad with a strong foundation in programming and software development. Experienced in building a range of projects, from small-scale applications to full-stack database-driven systems. Additionally, serving as a Media Head for Nascon'25 has helped me develop strong organizational and communication skills, allowing me to maintain a balanced approach to academics and extracurricular involvement.

Work Experience

UI/UX Intern at Codsoft   Mar 2023 - Aug 2023

Gained practical experience in HTML/CSS, JavaScript, and backend technologies.

Freelance Projects   Mar 2023 - Present

Gained Industry expertise in handling clients and their projects.

Projects

Gym Management System (CSharp)   View Project

Designed and developed a management system using C Sharp desktop application, integrating SQL Server Management Studio for efficient data management.

Travel Website (HTML/CSS)

Built a responsive travel-themed website using HTML and CSS.

Restaurant Point of Sale (HTML, React Js)   View Project

Developed a dynamic Point of Sale system for restaurants using React.js. Implemented key features like order management, cart functionality, and real-time updates for seamless user interaction.

Event Booking Website (DevOps/Kubernetes, Node/Express Js)   View Project

Created a full-stack event booking platform using Node.js and Express.js. Implemented RESTful APIs, user authentication, and booking logic to streamline the event registration process.

Almirah Redesign (HTML, Node/Express Js)   View Project

Redesigned the Complete Website of an existing Clothing brand (Almirah)
